Tuesday, February 21, 2023

Failure Mode and Effects Analysis Presentation by QC Training Services, Inc.

Target Audience - People from quality, manufacturing, engineering, purchasing or marketing will benefit from this Failure Mode and Effects Analysis presentation, in understanding the cases for when to apply the FMEA process (new design or process, modifications to existing design or process, or use of existing design or process in a new application). Participants will be made aware of the general application of the FMEA methodology, which is common to both DFMEA and PFMEA, how to estimate the Severity, Occurrence and Detection rates that result into RPN criteria, and minimizing risks.

About QC Training Services

Our mission is to be North America's leading and most trustworthy Quality and Technical Training company. We will do this by providing the broadest portfolio of workshops that includes fresh, relevant content and using different delivery methods for meeting the diverse needs of our customers.

As trainers, we have trained thousands of individuals across dozens of technical subjects – from GD&T and Print Reading to ISO Lead Auditing. Our trainers are experts in their respective fields, leveraging the latest information and industry standards to support your manufacturing process improvement efforts. We ensure that after a training workshop, you will return to the workplace with the skills and competencies needed to perform at maximum effectiveness. If you prefer distance learning, we offer Online Training.

Join SAE Twin Cities at RFA Engineering in Eden Prairie for a presentation on FMEA by QC Training Services or participate online. **Address:** 12986 Valley View Rd, Eden Prairie, MN 55344 .

Note: There is a **limitation of 30 registrations at RFA Engineering**, so priority will be given on a first come first basis to the first 30 that opt for in person attendance. Anybody can participate remotely though.
