

The Technology of Mobility Conference and Exhibition 2023

12-15 September 2023

International Barcelona Convention Centre, Barcelona, Spain

20% OFF DELEGATE TICKETS

The Technology of Mobility Conference & Exhibition is the hub for the international mobility systems engineering community. The global industry will come together over four days to explore the technology, methodology and strategy of mobility, from design through to manufacture and use, by bringing together the many different disciplines of engineering innovation required for the technology of tomorrow's mobility.

The four-day FISITA World Congress will run concurrently with the one-day FISITA World Mobility Summit, the three-day EuroBrake and the one-day inaugural FISITA Intelligent Safety Conference Europe, with all taking place in the Barcelona International Convention Centre from 12th-15th September 2023.

As a member of SAE International, you are entitled to a discount of 20% on all delegate tickets for the event. Simply enter code TMCEsmE23 when paying for your ticket.
