

VOL. 54 NO. 4 APRIL, 1986

#### SAE ACTIVITIES

The entire Chicago Section expresses its appreciation to the following people who gave their time and effort to place the Auto Show tickets in the February, 1986 issue of the News:

Jake Bertram Mary Bertram William Grey

Mike Hopkins Al Kluge Chuck Nelson

Ken Wolfgram Jan Wolfgram Hiroshi Yano

Thank You!

People who work hard and participate in SAE activities enjoy what they're doing and have a good time doing it.

L to R: Pat Brunicardi, Bill Farrell, and Chuck Cervenka.

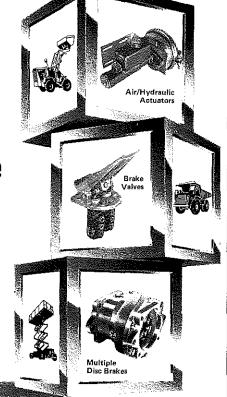

BUILDING A BETTER BRAKE

BRAKE SYSTEM WITH

MICO Quality Hydraulic Brake Components

MICO is meeting today's hydraulic fluid power needs with innovative ideas . . . answering the challenges of adverse environmental conditions . . . filling the demands for complete brake systems and simplicity of design with MICO's full range of hydraulic brake products.

Call us, we're listening.

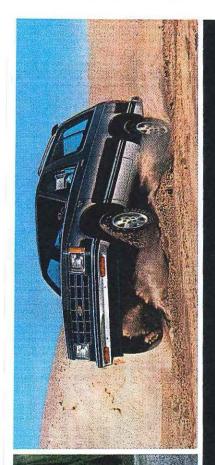

1911 Lee Boulevard, P.O. Box 2118, Dept. N-57, North Mankato, Minnesota U.S.A. 56002-2118 Phone: (507) 625-6426 TELEX 910-565-2444

#### MICO WEST

701 East Francis Street, P.O. Box 9058, Dept. N-57, Ontario, California U.S.A. 91762-9058 Phone: (714) 947-4077 TELEX 510-600-0132

A high-technology battery for today's high-technology vehicles: The Delco Freedom Battery. It's a truly maintenance-free automotive battery. Made with a tough, finely grained lead calcium power grid that contains no antimony to cause excessive gassing and water loss. With a sealed top, to help prevent overfilling, contamination and internal damage. And with a lifetime supply of electrolyte, so you never have to add water. Ever.

Quality is built in. From the inside out. From the incoming raw materials to the finished product, Freedom Batteries are tested and re-

tested for quality control. Data from every test are compiled by a central computer for accurate "Statistical Process Control." It's a continuous state-of-the-art check on today's performance—and the basis for future improvements.

Delco gives you Freedom of choice. Delco Freedom Batteries come in a variety of efficient sizes and performances that can help you save weight, space and fuel. And they're available with different terminal configurations to meet your specific requirements.

**Get more than just a battery.** Get 57 years of Delco Remy experience,

and the know-how that comes from having manufactured 391 million batteries (100 million Freedoms). Get Delco Remy's worldwide expertise as a complete electrical systems designer. And get the freedom of a no-maintenance battery designed and tested for dependability: The Delco Freedom Battery.

Delco Remy, Division of Ğeneral Motors. World Headquarters: Anderson, Indiana 46018. Offices in Milton Keynes, England; Russelsheim, W. Germany; Gennevilliers, France; Milan, Italy; Tokyo, Japan; Seoul, Korea.

A world leader in automotive electrical systems.

#### SAE ACTIVITIES

#### **CHICAGO SECTION**

**JANUARY 14, 1986** 

Bill Farrell presides as chairman.

Ray Morris, SAE Headquarters, has an informative discussion with Chuck Cervenka prior to the evening's technical program.

# MICHIANA DIVISION SAE Chicago Section TUESDAY, APRIL 22, 1986

SPECIAL FEATURE: SPOUSE'S NIGHT

TOPIC: SOUTH BEND'S EAST RACE WATERWAY
BY

JOHN E. FISHER, PE PARTNER, LAWSON-FISHER ASSOCIATION

The East Race is a man made branch of the St. Joseph River. Used in the 1800's by industry it has been rebuilt into a local recreational facility and international Kayak course. John Fisher will describe its design, construction and use.

John Fisher has both BS and MS degrees in civil engineering from the University of Notre Dame. As a registered professional engineer in 9 states, John has considerable experience in construction and construction management of hydro-electric, hydraulic and waste treatment facilities. He is currently a partner in Lawson-Fisher Associates, Consulting Engineers.

**Dr. Jerry J. Marley** is an Assistant Dean of Engineering in the College of Engineering at the University of Notre Dame. As a civil engineer, Dr. Marley's work has included soil mechanics and construction techniques.

Note: Before or after the meeting you may walk along the East Race, just east of the Wharf Restaurant.

#### **Meeting Location**

"FUEL SUPPLIES — LOOKING BACK, LOOKING AHEAD"

BY

**ALAN LEARD** 

Motorists, truckers, farmers, railroads and the construction industry all depend on fuel at an affordable price. In shortly more than a decade, the U.S. — and the oversupply to shortages and back to oversupply. Alan Leard's talk will put histo into perspective, and will review expected future fuel demands, crude sources a tions of alternate and synthetic materials to the motor fuel pool.

**COFFEE TALK: "BURMA"** 

Alan Leard is a Research Engineer in the Fuels Research Division of Amoco Oi involved in fuel demand forecasting, gasoline volatility studies and evaporative received his BS and MS degrees in Mechanical Engineering from Kansas Sta

Roy Slovenko is Director of Refinery Strategies in the Refining and Engineering Oil Company. He has degrees in Chemical Engineering from Tulane Univers Michigan. Roy is a camera enthusiast of long standing, and travels widely throug matter. His recent film travelogues have focused on the Far East.

## FOX VALLEY DIVISION SAE Chicago Section TUESDAY, APRIL 22, 1986

#### ENGINE VIBRATION DAMPENING BY DR. ROMULUS RACCA

This presentation will review the principles involved in the selection and application of elastomeric isolators to internal combustion engines in order to develop an isolation system that is both effective and provides satisfactory service life.

**Dr. Romulus Racca** is Senior Project Engineer at Barry Controls, Eastern Operations, in charge of O.E.M. Applications. Dr. Racca received his BS at the University of Connecticut and subsequently received his MS and PHD degrees from Columbia Pacific University. Dr. Racca has a PE license from the State of Connecticut. He has over 33 years experience in the design and application of elastomeric shock and vibration control devices. He is the author of several patents and many technical articles in this field.

James M. Quigley is Vice President of Clarkson Company in Chicago, as well as Area Sales and Technical Representative for Barry Controls. Jim received his BSME degree in 1973 from Northwestern University and a MA degree from Boston.

#### COFFEE TALK SPEAKER: Jim Culpepper

**Jim Culpepper** is an exercise physiologist at Edward Hospital in Naperville, IL. Jim's talk will provide various ways to relieve stress and strain common to office ridden workers.

Meeting Location Saratoga Hotel Corner of Rte. 31 and I-5 North Aurora, IL

#### On the "HIGHWAY TO EXCELLENCE"

Lest in our pursuit of sophisticated technology, computers, things electronic, as well as all the comforts with which our life is blessed, we forget our humble beginnings.

Power Steering? Power Brakes? Air Conditioning? Automatic Transmissions? Hadn't even been invented when these cars were built.
